*All purpose  
natural plant food*

*Promotes healthy living soil*

*Encourages strong healthy plants*

*Improves water holding capacity  
and reduces disease and pests*

*Used in award winning gardens*

YLAD Living Soils

Putting life back into the land

 A large portion of the value of **Gourmet Compost™** comes from the humus content and its ability to restore or enhance biological activity in the soil allowing nutrient cycles to function and recycle nutrients.

 **Gourmet Compost™** encourages beneficial micro-organisms and earthworms, whilst storing moisture and improving aeration. It can be used when growing all types of garden plants (including flowers and vegetables) and is suitable for phosphorus-sensitive plants such as natives.

APPLICATION	RATE	PROCEDURE
Horticulture/Viticulture	500gm per m <sup>3</sup>	 Spread by hand or applicator
Turf & Vegetables	1 kg per m <sup>3</sup>	 May be applied as a top dressing
Garden & Lawns	2kg per m <sup>3</sup>	 No need for incorporation

### DRY WEIGHT TYPICAL ANALYSIS\*

\* Subject to Batch Variation

Nitrogen (N)	1.3%
Phosphorus (P)	0.55%
