

YLAD Living Soils 2017 Granular Down the Tube Blends

Germinate

Product	kg per ha	Total per ha bulk*
Germinate™	69	\$ 90.35

Germinate is a granular fertiliser for cereal sowing, a microbe friendly, carbon based blend, supplying soluble and slow release nutrients to improve soil, root, and plant dynamics for greater yields and quality. Benefits include reduced leaching and lock up, less fertiliser root burn associated with all acid based fertilisers and the development of greater root mass and 'dreadlock' roots.

Typical Analysis in units: N - 4.4, P - 11.2, S - 1.08, Ca - 5, Zn - 1.46, B - 1.55, Humic Acid - 2.8

Total - ex GST - ex Young \$ 90.35

Germinate Plus

Product	kg per ha	Total per ha bulk*
Germinate Plus™	109	\$ 108.95

Germinate Plus is a granular down the tube fertiliser for canola and grazing crops sowing. Germinate Plus contains more nitrogen and sulphur in a buffered form to ensure quick germinate and early plant growth. A microbe friendly, carbon based blend, supplying soluble and slow release nutrients to improve soil, root, and plant dynamics for greater yields and quality. Benefits include reduced leaching and lock up, less fertiliser root burn associated with all acid based fertilisers and the development of greater root mass and 'dreadlock' roots.

Typical Analysis in units: N - 12.4, P - 11.2, S - 10.68, Ca - 5, Zn - 1.46, B - 1.55, Humic Acid - 2.8

Total - ex GST - ex Young \$ 108.95

Legume Plus

Product	kg per ha	Total per ha bulk*
Legume Plus™	87	\$ 113.65

Legume Plus is a granular down the tube fertiliser ideal for sowing lupins, lucerne, pastures and clover or any crop symbiotic with rhizobium. Legume Plus contains more calcium than any of our other blends to ensure excellent nodulation and active nitrogen fixing. A microbe friendly, carbon based blend supplying large amounts of slow release nutrients to encourage active root growth.

Typical Analysis in units: N - 2.2, P - 4.4, S - 14.94, Ca - 15, Zn - .83, B - 1.55, Humic Acid - 2.8

Total - ex GST - ex Young \$ 113.65

These products are also available in 25kg bags and 1 tonne bulk bags for an additional cost
