

Y^LA^D Living Soils *Putting life back into the land*

Nutri-Care™

Soil Balancing

Cropping

Pasture & Animal

Foliar & Fertigation

This product relies upon a combination of nutrient support and botanical clout to assist the plant to thrive.

Description

A liquid blend of fish protein, amino acids, fulvic acid and natural plant growth promotants, including saponins. Nutri-Care™ also features a revolutionary botanical extract.

Benefits

- Biological Farmers of Australia (BFA) Certified Product 456A1.
- Can be used frequently as it will not sponsor an NPK overload.
- Can assist in the recovery of previously affected insect-damaged crops.
- A natural dual-purpose foliar.

Packaging

Available in the following volumes:

- 1 L
- 5 L
- 20 L
- 200 L
- 1000 L

Application Rates

Foliar: 2 - 5 L per ha (depending upon plant size). Apply every 10 - 14 days or as required for maximum results.

Minimum Dilution: 1:150

Do not apply 5 - 7 days before harvest.

NOTE: Do not apply in the 2 weeks prior to flowering or during flowering.

Typical Analysis w/v

Nitrogen	
(as organic N)	4.0%
Phosphorus (as organic P).....	0.50%
Potassium (as fulvate)	0.04%
Potassium (as organic K).....	1.2%
Total Potassium	1.2%
Sulphur	1.1%
Calcium.....	2250 mg/L
Magnesium	540 mg/L
Copper.....	90 mg/L
Boron	1250 mg/L
Zinc.....	750 mg/L
Manganese	90 mg/L
Iron.....	50 mg/L
Molybdenum.....	80 mg/L
Sodium.....	880 mg/L
pH	3-5
Specific Gravity.....	1.17
Conductivity.....	24 - 34 mS/cm
Solubility.....	100%

Storage & Handling

- Needs a very thorough shake or stir to ensure even distribution of botanicals.
- Store in cool dry area out of direct sunlight.
- This product has been tested to store safely down to 5°C. Crystallisation or sedimentation may occur below 5°C.
- Spray coverage (upper and lower surfaces of the plants) is important for maximum results.
- The addition of alkaline materials will reduce the efficacy of this product.
- Always perform a "jar test" to test compatibility before mixing with other materials.
- Avoid spraying before harvest if fruit & vegetables are susceptible to staining.
- Store out of reach of children.
- Do not apply 5 - 7 days before harvest.

Miscellaneous

Appearance: Dark brown/black in colour with bitter odour
 The botanical ingredient in Nutri-Care™ is included to help with the recovery of previously affected insect-damaged crops.
