

# YLAD Living Soils *Putting life back into the land*

## Liquid Fish™

Soil Balancing

Cropping

Pasture &amp; Animal

Foliar &amp; Fertigation

The world's highest analysis, natural fish fertiliser containing amino acids, fatty acids, vitamins, macronutrients and the vast army of micronutrients found in anything that grows in the ocean.

### Description

Involves 42 - 50% fish solids, principally derived from high-protein NZ deep water fish species. This fish fertiliser has the highest natural nitrogen of any fish product, and up to 5 times higher trace element levels than most other brands. 25 kg of fish frames are used to produce 1 L of this powerful concentrate.

### Benefits

- Biological Farmers of Australia (BFA) Registered Product 456A1.
- Exceptionally high, natural nitrogen - derived from cold-water, high-protein species.
- Highest percentage of fish solids available.
- This unique combination triggers growth and sustains the soil.
- Naturally balanced minerals, vitamins, oils, proteins, amino acids and trace elements.
- Promotes earthworms and micro-organisms.

### Packaging

Available in the following volumes:

- 1 L
- 5 L
- 20 L
- 200 L
- 1000 L

### Typical Analysis w/v

Nitrogen	
(as organic N)	.....5.0%
Phosphorus	
(as organic P)	.....0.7%
Potassium	
(as organic K)	.....1.0%
Sulphur	.....1.0%
Calcium	.....250 mg/L
Magnesium	.....575 mg/L
pH	.....3.5 - 4.5
Specific Gravity	.....1.12
Conductivity	.....32.6 mS/cm
Moisture	.....53%

### Storage & Handling

- Compatibility and/or performance cannot be guaranteed when combined with other products. Jar test for compatibility and spray test on small area before wide-spread use. When combining with other chemicals, add this product to the tank last.
- Store in cool dry area out of direct sunlight. This product has been tested to store safely down to 5°C. Crystallisation or sedimentation may occur below 5°C.

### Warning

- Avoid spraying close to harvest if fruit/vegetables are susceptible to staining.

### Application Rates

**Foliar:** Minimum Dilution 1:100

**Small Crops, Turf & Vines:**

3 - 5 L per ha

**Orchard Crops:**

5 - 7 L per ha

**Broadacre:**

1 - 3 L per ha

**Soil Application:** 10 - 30 L per ha

**Soak seedlings** or planting material in a 1:150 dilution.

### Miscellaneous

- Acts as a highly effective wetter-sticker-spreader for foliar fertilisers and is compatible with most chemicals, but always perform a jar test to check for precipitation.
- Do not pre-mix or store in diluted form.
- Shake or stir concentrate thoroughly before adding to partially filled tank.
- When combining with other chemicals, add Nutri-Sea Liquid Fish™ last.
- Do not decant into metal drums or containers as Nutri-Sea Liquid Fish™ can gradually corrode them.
- **NOTE:** This product is not designed to be used to modify the effect of an agricultural chemical product.
