

Huma-Tech™ Soluble Humate Granules

Increasing Fertiliser Efficiency

Include with all fertilisers:

Urea, DAP, MAP, SOA, etc.

Rates: 2-7 kg/ha or a ratio of 1 kg of Huma-Tech™ to 10-20 kg of fertiliser.

Concentrated humate granules prevent fertiliser lock-up and leaching, and reduce damage from excess sodium in soil and irrigation water.

Humates contribute to disease management, Canola Crop at Young, NSW in 2003

Humates drought proof broadacre crops

Humates reduce urea applications and improve pasture quality

Huma-Tech™ Soluble Humate Granules are highly concentrated and extremely soluble. One teaspoon of granules will turn a glass of water black!

LIVING SOILS

Putting life back into the land

Moppity Road Young NSW 2594 Telephone 02 6382 2165 email: ylad@draget.com.au

Huma-Tech™ Soluble Humate Granules

- Allows reduction in fertiliser rates up to 50%
- Bonds with fertilisers and reduces the leaching of nitrogen and the lock-up of phosphorus
- Stabilises urea, providing long-life nitrogen
- Stimulates faster emergence and greatly increases root development
- Buffers plants from excess sodium in soil or water
- Increases soil moisture and nutrient holding capacity
- “Holds” nutrients in sandy soil and improves structure in heavy soils
- Contributes to reduced disease levels in all crops
- Produces quality improvements in all crops
- Hosts beneficial soil life and builds organic carbon levels in soil
- Builds milk production and animal weight gains due to higher mineral density pastures
- Reduces adverse weather stress on plants
- Avoids the “feast or famine” syndrome of soluble fertilisers

Illabo, NSW July 2004 (Drought Conditions)

A. Control
100Kg/ha

B. Life-Force®
Seeding Program
50Kg/ha DAP
Four-Pack Seed Treatment
2Kg/ha Huma-Tech™
Humate Granules
4Kg/ha Zinc Mono

Huma-Tech™ Potassium Humate Granules

Huma-Tech™
Potassium
Humate
Granules are highly
soluble, contain 70%
humic acids with 16%
fulvic acid content.
Convenient and easy to
use, blend with fertiliser
or seed.
Compatible with all dry
fertilisers.
