

# SOIL THERAPY™ SPORTS FIELD PROGRAM

## 3 Easy Environmentally-Friendly Steps for Exceptional Turf

### Step 1

#### Soil Therapy™ Report and LifeForce® Prescription Blend

Once a year, undertake soil testing using the **NTS Soil Therapy™ Service** to determine soil nutrient requirements. Broadcast your specifically designed **LifeForce® Prescription Blend**. Balancing the minerals in your soil will improve soil structure and increase general fertility. See your distributor for details.

### Step 2

#### Boomspray Program

Please note that this is a general program and should be monitored and fine-tuned with leaf analyses.

*Apply monthly or whenever feasible to 100 m<sup>2</sup>:*

**Turf-Tech Triple Ten™** at 50 mL

**Phos-Life™** at 50 mL

**Magnesium sulfate** at 50 g

**Nutri-Key Shuttle Seven™** at 20 mL

**Dia-Life™** at 50 mL

**Sea-Change KFF™** at 50 mL

**Cloak™** spray oil at 200 mL/100 L of water

### Step 3

#### Building Biology

**Nutri-Life 4/20™** is Australia's most popular inoculant having achieved numerous successes over the last decade. It is a potent microbial inoculant which will help to repopulate the soil with beneficial soil biology. This translates into longer root growth, improved soil structure with less compaction, and healthier turf. 4/20™ can be freshly brewed at our Yandina warehouse, stabilised with our unique **Nutri-Life Entrap™**, and delivered to your club for ease of application. Apply 1L/ 100 m<sup>2</sup> of this brewed concentrate monthly.

Note: microbial applications can be included with the fertilisers above - add the brewed microbes to the tank last after dilution.

**Disclaimer:** Any recommendations provided by Soil Therapy™ P/L are advice only. As no control can be exercised over storage, handling, mixing application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. The buyer assumes all responsibility for the use of any of our products.
