Nutri-Life Platform™

Soil Balancing

Cropping

Pasture & Animal

Foliar & Fertigation

The biological base of problem-free agriculture.

Description

Huge numbers of Arbuscular Mycorrhizal Fungi (AMF) and *Trichoderma* together in one breakthrough blend. Root health is plant health and these two species are the essence of healthy roots.

Benefits

- Australian Certified Organice (ACO) Registered Product 456AI
- •Builds humus Glomalin produced by AMF generates
- 1/3 of the world's soil carbon
- Increases root zone with all of the associated benefits
- Can reduce fertiliser requirements through improved nutrient uptake
- Boosts phosphate and zinc availability
- · Lifts calcium levels in plants
- Improves bio-balance and associated plant resilience in the root zone
- Serves as a synergist to improve nitrogen fixation

Packaging

Available in the following sizes:

- 200 grams
- 1 kg

Application Rates

Seed Treatment*

50 g/ha mixed in sufficient water for good coverage (approximately 5 L/tonne of seed). Seed-Start™ is a synergistic nutrition-based treatment.

*Slowly add Seed-Start^m at 5 L/tonne of seed to the Platform^m solution before applying this mixture to the seed. (Total mixture is not to exceed 15 L/tonne).

Fertigation/Soil Application**

Vegetables, cotton, viticulture, orchards and sugarcane:

40 g - 200 g/ha***

Golf Fairways &S ports Fields:

40 g - 200 g/ha

Golf Greens:

1 kg/ha****

Pasture:

40 g - 200 g/ha****

- ** Dissolve 200 grams in 10 L of water, stir well and add to the fertigation/spray tank. Agitate throughout application. Do not apply with fertilisers/pesticides. Do not store pre-mixed product.
- *** Use sufficient water to wash product into the top 2-4 cm of soil.
- **** Ideally apply product before light rain (or irrigation) to achieve incorporation to 3mm.

Seedling/Runner/Tubestock Planting Treatment

Dip seedlings/runners/tubestock in a solution containing 50 grams of Platform™ per 100 L of water. Stir solution regularly throughout process.

Important: See our website for details of pesticides which are not compatible with Platform™.

Typical Analysis

Contains Arbuscular Mycorrhizal Fungi (AMF) and *Trichoderma* species.

Storage & Handling

- Immuno-compromised persons (e.g. those undergoing chemotherapy) should not handle or be exposed to microbial products.
- While handling and applying microbial products protective clothing, gloves and face masks should be worn.
- Contains live organisms. Sanitise spray tank before application.
- Store in cool, dry place away from sunlight and below 30°C (preferably under refrigeration). Use as soon as possible after opening but if this cannot be achieved then refrigerate remainder immediately after use and use within 3 months. Contamination of contents may occur at any time after opening and YLAD Living Soils takes no responsibility for opened product not used immediately. **DO NOT FREEZE.**
