Seed Start™

Soil Balancing

Cropping

Pasture & Animal

Foliar & Fertigation

NEW IMPROVED FORMULATION

Good seed-starters are like mothers milk - early hormonal, enzymal and nutritional support translates to improved health throughout the life cycle.

Description

A fusion of proven germination enhancers and seedling kick-starters designed to promote early vigour and improved plant health.

Benefits

- Faster germination response.
- Improved germination rate.
- Greater early shoot and root mass.
- A healthy seedling is inherently more robust and resilient.
- Seed-Start™ promotes beneficial organisms in the root zone.

Packaging

Available in the following volumes:

- 1 L
- 5 L
- 20 L
- 200 L
- 1000 L

Seed-Start™

APPLICATION RATES

Seed Treatment:

6 – 8 L/tonne of seed diluted in sufficient water to just coat the seed

Seedling Treatment:

Dip seedlings in a 1:100 dilution (10 mL per litre) or apply in first fertigation at 15 – 30 L/ha

Home Garden Application:

Dilute 30 mL per 9 L watering can and apply the diluted mix, immediately after planting, at a rate of 1 litre per square metre

INSTRUCTIONS

Shake or stir well before use & maintain constant agitation. It is advisable to pre-mix, adding this product slowly while maintaining agitation. Spray tank will require constant agitation to prevent settling of solids. A coarse inline filter (500 microns/35 mesh) is recommended. Compatibility and/or performance cannot be guaranteed when combined with other products. Jar test for compatibility and test on small area before wide-spread use.

IMPORTANT

- Not compatible with solutions containing dissolved phosphorus and/or calcium.
- **Note:** Product in 1000 L tanks may weigh over 1 tonne. Forklift with 2 tonne lifting capacity is recommended.

TYPICAL ANALYSIS W/V

Total Potassium (K) (as organic).....	2667 mg/L
Calcium (Ca).....	4.13%
Sulfur (S).....	1.24%
Magnesium (Mg).....	734 mg/L
Iron (Fe).....	160 mg/L
Zinc (Zn).....	71 mg/L
Manganese (Mn).....	64 mg/L
Molybdenum (Mo).....	8 mg/L
SG.....	1.1
pH.....	8 – 9
Conductivity.....	5 – 15 mS/cm
Appearance.....	Thick brown liquid

STORAGE & HANDLING

- Store in a cool dry area out of direct sunlight. This product has been tested to store safely down to 5°C. Crystallisation or sedimentation may occur below 5°C. Do not pre-mix or store in diluted form. Seal lid/cap immediately after use.
