

YLAD Living Soils *Putting life back into the land*

Vineyard Program

YLAD Humus Compost Prescription Blend

Once a year, undertake soil testing to determine soil nutrient requirements. Apply a YLAD Humus Compost Prescription Blend at a rate of 2000kg to 4000kg depending on soil requirements. The YLAD Humus Compost Prescription Blend is specifically designed and applied Pre Budburst to balance the minerals in your soil while building a diverse population of soil biology. YLAD Humus Compost also assists with improving soil structure and water holding capacity and increasing soil microbiology.

Foliar and Fertigation Recommendations

E-L Number	Growth Stage	FOLIAR (per ha)	FERTIGATION (per ha)
1	Pre Bud Burst	YLAD Humus Compost Prescription Blend	
2	Pre Budburst		Nutri-Life Platform Organic Colloidal Concentrate - (OCC-R) 1:10000
4	Budburst		YLAD Humus Extract Tea - HP 100L/Ha OCC-R 1:10000 Twin N
9	3 leaves separated	YLAD Humus Extract Tea- HP 100L/Ha OCC-R 1:10000 Nutri-Key Boron Shuttle 3L/Ha Nutri-KeyTri-Shuttle (ZIM) 3L/Ha	
12	Inflorescence visible - 5 leaves	YLAD Humus Extract Tea - HP 100 L/Ha OCC-R 1:10000 Grape-Tech 5L/Ha TripleTen 5L/Ha	
	7 Leaves		YLAD Humus Extract Tea- HP 100 L/Ha OCC-R 1:10000 Phos-Life 15L/Ha Potassium Sulphate 15Kg/ha Amino- Tech 15L/Ha Fast Fulvic 3L/Ha
	12 Leaves Early Flowering	Photo-Finish 5L/ Ha OCC-R 1:10000	OCC-R 1:10000 Inkabor 1.5kg/Ha Dia-Life 5L/Ha NTS Liquid Humus 7L/ Ha
25	80% capfall	Botrytis Spray	
Petiole Test to Determine Nutrient Status			

End of Flowering			
27	3 mm berry size	YLAD Humus Extract Tea - HP (no fish) 100L/Ha OCC-R 1:10000 Phos-Life 5L/Ha Fast Fulvic 1L/Ha Nutri-Kelp 700gm/Ha or Tri-Kelp 400gm/Ha	
31	Berry Pea Size	YLAD Humus Extract Tea - HP (no fish) 100L/Ha OCC-R 1:10000 Phos-Life 5L/Ha Fast Fulvic 1L/Ha Nutri-Kelp 700gm/Ha or Tri-Kelp 400gm/Ha	
33	Berries Hard & Green	OCC-R 1:10000 Phos- Force 5L/Ha K-Carb-35 5L/Ha	YLAD Humus Extract Tea - HP 100L/Ha OCC-R 1:10000 Twin N
35	Veraison	Photo-Finish 5L/Ha, OCC-R 1:10000	
38	Harvest
